ARCHITECTURAL COLLECTION  
FALL 2012

# Cantalupi

USA

For over 20 years Cantalupi has been supplying the best American and international super-yachts with its lighting solutions. Superb craftsmanship and the adoption of the latest LED and electronic technologies were the hallmark of the Cantalupi lighting products that thus became the #1 choice in such a secluded and exclusive market.

In 2006 Cantalupi USA opened to get closer to the American customer and to make available to the architectural world Cantalupi's unique mix of design and quality.

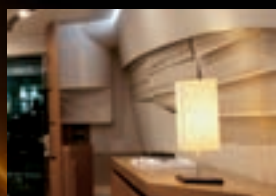

Cantalupi USA success has exceeded all expectations and for that I would like to thank all our customers that assisted us to evolve into the company we are today.

It is our pleasure to present the 2012 Cantalupi USA Architectural Collection.

  
Bruno Cantalupi

# READING LIGHTS

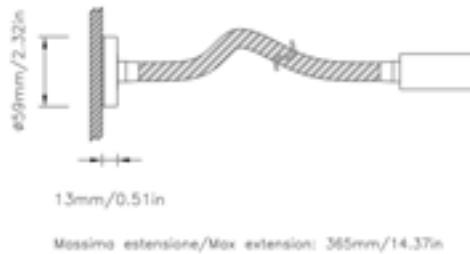

# OSLO

LED

Mixing areas of expertise to create an amazing product is a long standing ritual in Italy. The OSLO and the MOSCA are the example of such collaborations. With the perfect LED technology to create the soft amount of light your eye needs to read without blinding turned on by a simple tap on its head, with an exquisitely constructed brass body finished the Cantalupi quality metals and their necks covered in hand stitched leathers from the same source as some of our great Italian designers the OSLO and the MOSCA are the most luxurious reading lights available. Already used in some of the most luxury hotels and locations these are one of a kind models and we are happy to share them with you.

# ZANIBONI

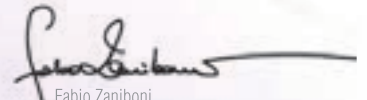

Through our growth in the architectural market these past years and the specification of our products from Hospitality Designers worldwide, of which we thank dearly, we have been asked time and time again to expand our Cantalupi USA line of UL listed lighting to include more decorative fixtures of our one of a kind designs for one of a kind projects.

After collecting design ideas and inspirations and mixing them with our world influences we were able to develop an eclectic style and bring this lighting to life with the best materials and craft from Italy and beyond.

I am therefore pleased to present to you the addition of the Zaniboni line.

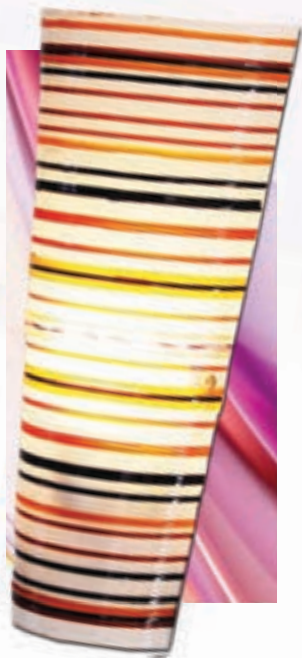

A fast developing line, full of life and inspiration;

I hope you will enjoy it as much as we enjoyed bringing it to you.

  
Fabio Zaniboni  
President

# LUNA 9 AN

The LUNA series of recessed downlights is intended to give the maximum flexibility to light designers involved in commercial and hospitality projects. Sources vary from 700 lm to 4,000 lm. The all aluminum trim and body allows for uniform heat dissipation. The heat sink design allows for the best ratio in the industry of recessed depth/glare. Available either fixed or adjustable. Many different options and shapes of polished machined aluminum rings are available. Many powder coating colors are also available. Available in clear glass, Solite-style glass or sanded glass. Standard 3.000K. Optional 2.700K and 4.000K.

# KAA

Black & Chrome

LED

Sleek and beautiful, the KAA is the answer to the constant challenges posed by our most trusted hospitality designers and experienced end-users.

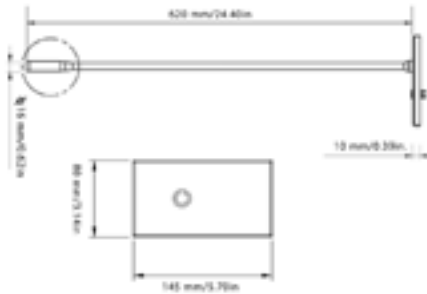

With a choice of many variations your KAA will come in Chrome & Black, White & Chrome and Total White with a polyolefin sleeve as well as in a Total Chrome finish. The KAA maintains durability while standing confident amongst our most luxurious pieces within the Zaniboni Line. The KAA gives the perfect amount of light for reading, task lighting or even as an artistic accent fixture.

The back plate is designed to be used with a standard 3"x 2" junction box for a very easy installation.

Love the KAA but not sure if it fits with your interior design palette? Special finishes for projects can be requested to further the perfect integration of product and design.

\*al momento della stampa di questo catalogo il prodotto era ancora sotto processo di certificazione.

\*at the time of printing this catalog, the product was still in the certification process.

The manufacturer reserves the right to change or modify the design, dimensions, and photometric information at any time without notice. Manufacturer accepts no liability for consequential damage which is occasioned to the user based on the data provided.

HOUSING

NON IC

Plaster frame specifically designed by Cantalupi USA to allow for installation of our lights where a can is required by code or requested by the designer.

Non-IC (No Insulation Contact)  
Class II (Low Voltage) - Does not include junction box

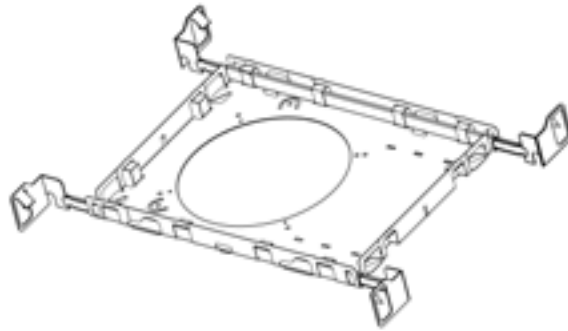

Dimensions/Dimensioni

Length: 10.38" (263.65 mm)

Width: 7.41" (188.21 mm)

Height: 0.79" (20.04 mm)

Cutout: 4.09" (104mm)

PRODUCT SPECIFICATION

The manufacturer reserves the right to change or modify the design, dimensions, and photometric information at any time without notice. Manufacturer accepts no liability for consequential damage which is occasioned to the user based on the data provided.

## HOUSING

### NON IC

Plaster frame specifically designed by Cantalupi USA to allow for installation of our lights where a can is required by code or requested by the designer.

Non-IC (No Insulation Contact)  
Class I (Line Voltage) -  
Includes attached junction box

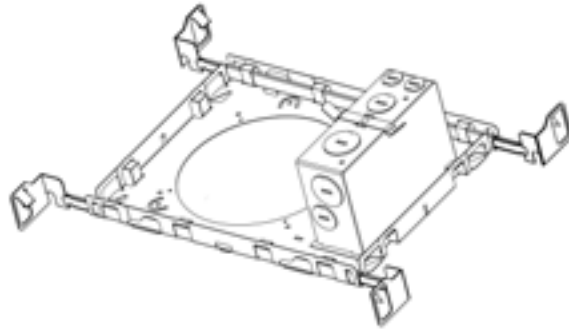

#### Dimensions/Dimensioni

Length: 10.38" (263.65 mm)

Width: 7.41" (188.21 mm)

Height: 3.47" (88.14 mm)

Cutout: 2.76" (70mm)

#### PRODUCT SPECIFICATION

Family	Name	Source	Optics	Finish	Electr. Specs.	Other
A 7	P L S T R	D 3 N O N	0 0	0 0	1 1	7 0 0 0

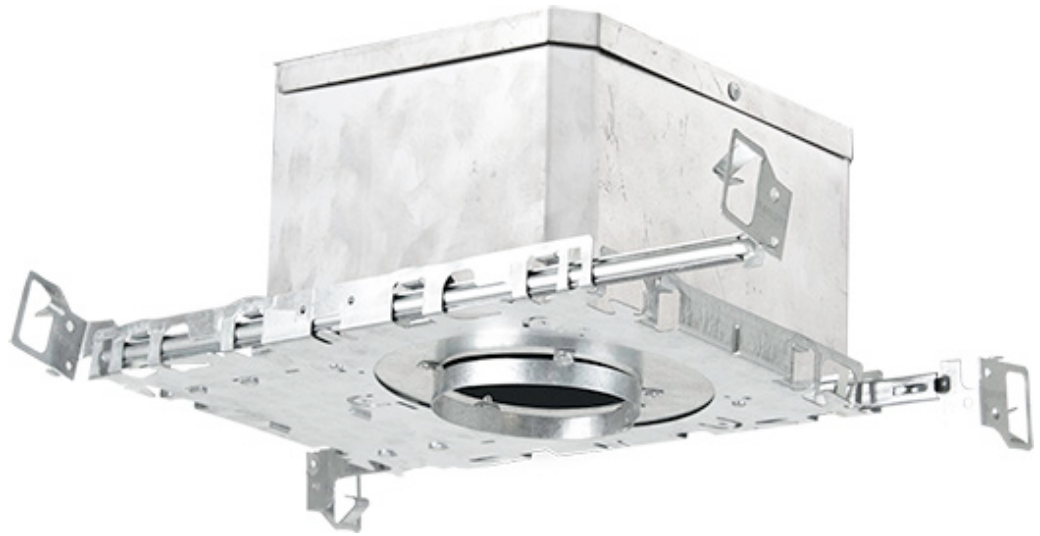

The manufacturer reserves the right to change or modify the design, dimensions, and photometric information at any time without notice. Manufacturer accepts no liability for consequential damage which is occasioned to the user based on the data provided.

## HOUSING

### IC/AIR TIGHT

Plaster frame specifically designed by Cantalupi USA to allow for installation of our lights where a can is required by code or requested by the designer.

IC (Insulation Contact)  
Class II (Low Voltage) - Does not include junction box.

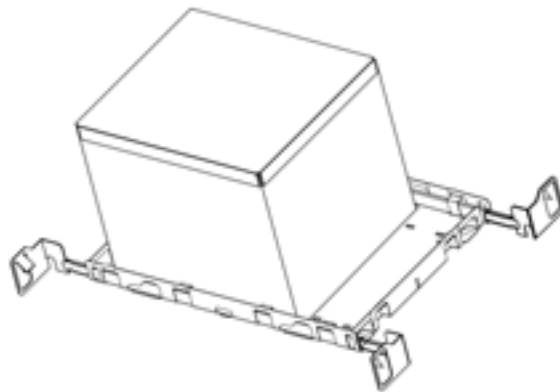

### Dimensions/Dimensioni

Length: 10.38" (263.65 mm)

Width: 7.41" (188.21 mm)

Height: 6.07" (88.14 mm)

Cutout: 4.09" (104mm)

### PRODUCT SPECIFICATION

Family	Name	Source	Optics	Finish	Electr. Specs.	Other
A 7	P L S T R	D 4 0 I C	0 0	0 0	1 1	7 0 0 0

The manufacturer reserves the right to change or modify the design, dimensions, and photometric information at any time without notice. Manufacturer accepts no liability for consequential damage which is occasioned to the user based on the data provided.

## LUTRON HI-LUME®

FOR LED LIGHTING

Hi-lume A-Series® is a high-performance LED driver that provides smooth, continuous 1% dimming for Cantalupi constant current LED fixtures. Cantalupi offers the 3-wire, EcoSystem, compact studded case, PWM dimming LED driver. The Hi-lume® A-Series LED driver is Class II output and appropriate for architectural applications.

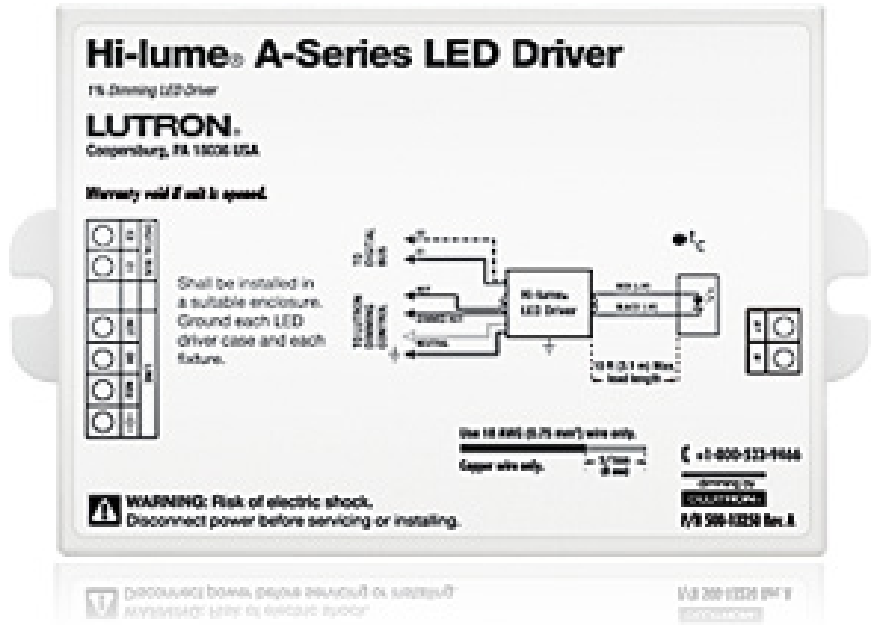

Two wire solutions available on request for use with non QS system.

### Dimensions/Dimensioni

3" X 1" X 4.9" / 7.6 X 2.5 X 19 cm

### Temperature/Temperatura

Min. 32°F - Max. 150°F / Min. 0°C - Max. 65°C

Codes:	Output Voltage	Watts	Current Level
A1-HILUM-L0508-00-00-31-KS00	8-20 V	4-10 W	500 mA
A1-HILUM-L0515-00-00-31-KS00	15-38 V	2.5-19 W	500 mA
A1-HILUM-L0530-00-00-31-KS00	30-54 V	15-22 W	500 mA
A1-HILUM-L0708-00-00-31-KS00	8-20 V	5.6-14 W	700 mA
A1-HILUM-L0715-00-00-31-KS00	15-38 V	10.5-26.6 W	700 mA
A1-HILUM-L0730-00-00-31-KS00	30-54 V	21-37.8 W	700 mA
A1-HILUM-L0908-00-00-31-KS00	8-20 V	7.2-18 W	900 mA
A1-HILUM-L0915-00-00-31-KS00	15-38 V	13.5-34.2 W	900 mA

The manufacturer reserves the right to change or modify the design, dimensions, and photometric information at any time without notice. Manufacturer accepts no liability for consequential damage which is occasioned to the user based on the data provided.

# ROAL Tropo

*Dimmable LED Driver*

TROPO Is designed for powering LED luminaries with standard lighting controls. The modules operate with:

- Standard Light Switches
- Triac based Incandescent

Dimmers (Standard phase - trailing edge)

- Electronic Low Voltage Dimmers (Reverse phase - trailing edge)

DIMMABLE LED DRIVER - 700mA CONSTANT CURRENT, 90~135V AC INPUT, 16~24V DC OUTPUT, FORWARD OR REVERSE PHASE

### Dimensions/Dimensioni

3.21" X 2.21" X 1.13" / 82 X 56 X 29 mm

### Temperature/Temperatura

Min. -22°C - Max. 194°F / Min. -30°C - Max. 90°C
